Annexure – III

We continue to nurture and strengthen the Best Practices of the previous year.

Best Practice I

Title of the Practice :

Best Practice 1: Providing academic and skill oriented help to Economically poor students through Mother Veronica Development Foundation (MVDF) programme.

Objectives :

PWC is a college for women managed by the Apostolic Carmel Education Society.

The Vision and Mission of the college stress on the importance of giving value based Higher Education to youth through academic pursuit for excellence, community involvement and empowerment of women. PWC is committed to the holistic development of women to make effective contribution to the creation of a new society.

Many students are helpless victims of their vicious domestic atmosphere. Financial constraints and health problems of a father or a drunken father, a mother who is a house wife, can shatter the hopes and aspirations of the students. It becomes impossible for them to concentrate on their studies in such an atmosphere. The family background of the student plays an important role in, first of all, coming to college and then, performing well in academics. These students are selected through a questionnaire and interview, The faculty in-charge gives importance to these students and she takes the role of mentor and counsellor, facilitates closer bonds between faculty, members and students. She enables the economically backward students of PWC to have easy access to knowledge and skill. Encourage a student to identify a teacher in her making her self-reliant and competent. This practice promotes a holistic development of education.

Context :

Besides this ongoing practice, some of the faculty members with the coordinator visit the houses of these students. House visits enable in assessing the student individually and understand their financial crisis. Financial assistance is provided to meet the expenses if required.

In some cases financial assistance is provided to purchase study books, go for study tours and so on.

Evidence of Success:

Feedback on this healthy practice is very positive both from the students and their parents.

There is a marked progress in the overall performance of the students. The students are motivated to perform better in their studies and also develop interpersonal skills. Parents feel at home with the teachers who have visited their homes .They are able to communicate more freely on the problems related to their children. There is considerable reduction in the dropout and failure rates. This healthy practice enhances credibility and employability; enhances upward mobility in the employment ladder; the spirit of academic adventure is kept alive ; promotes progressive group behavior ; Pass percentage and Placement have gone high; Number of students taking up higher education and research are considerably high; An employer is happy to take any candidate who runs an extra mile and our students do it; The number of Civil Service aspirants has gone up

Problems encountered and Resources Required :

Lack of awareness and commitment to be on time for extra classes, specially IT, language and soft skills. The tight schedule of time table leaves little time for house visits. Teachers have to make use of spare time and holidays to visit the homes of students. Orientation of faculty is needed Timely guidance while selecting the students who are truly economically disadvantaged.

Best Practice – II

The Inter College Women’s Association (Patna)

Context :

The association was started as a result of a huge procession of agitation through the streets of Patna, by a number of women’s colleges in 1985, when two women teachers of different colleges were murdered by their husbands, within a week of each other.

Objectives :

Having succeeded in getting the police to put the guilty husbands behind bars, the inter college committee which had been formed, decided that we, teachers, had to do

something to strengthen our girl students to fight the dangers which they had to struggle against in the society. All the colleges looked to Patna Women's College to take the lead. It was decided to form the women's colleges into an Association to work for this goal. It was called Inter College Women's Association (Patna).

Practice :

The aims of the association were: To organize inter college activities for the college students so that they would be enlightened and strengthened by correct values to stand up against the evils they would have to face. Patna Women's College was chosen to take the lead. About 15 colleges opted to participate. Soon, however, as might be expected, the number went down, for various reasons, to eight, and this number has persisted for 20 years. These colleges are continuing enthusiastically with the programmes.

The **programmes are of two types** - 1) Value Education seminars and Personality Development Contests. For the seminar, a suitable topic is chosen, such as, Social Awareness; Law and the Girl Child; The Women's Reservation Bill ; Economic Independence a Must for Indian Women etc. Teacher teams of four or five are appointed for each college to conduct the seminar and submit a report. This variety adds interest to the seminars both for teachers and the students. A paper is then drawn up, with subject matter as well as methods to be used, such as, fantasy, silent reflection, sharing, role-play, group discussion, to help the students get deeply into the subject. Usually, hot discussion follows - which emboldens the students to stand for their convictions. The seminar usually ends on this salutary note of excitement.

The Personality Development Programme consists of inter college contests in various fields – public speaking, debates, quiz programmes, poster making, anthakshari , flower arrangement, folk dances etc. These programmes provide a lot of mixing and organization and friendliness on the part of the students of the host college and consequently their personality development and leadership. And each college has its turn.

The I.C.W.A. has gone to women and girl children outside the college walls with **two big projects**: 1) to the Boys of Remand Home & **Women's Remand home**, where among other things, the women are given Vocational Training .2) to the Girl children /and Boys of the **slums of Patna**, who are **given education in good schools. Boys are not excluded because there should be no risk of their feeling inferior to the girls- and thus pose a new problem.**

Evidence of Success:

- Students of different colleges mix easily
- They are bold in taking active part in activities, as compared to earlier days
- They bring up evils of the society and discuss freely and frankly what can or should be done.
- Several topics deal with what Parliament decides with regard to women. For,e.g the number of women in Parliament and these incite the girls to heated discussion which never happened before

Challenges :

On the whole, the ICWA has worked smoothly for the last 29 years, perhaps because of the monthly meeting of the Core Group (Representative Teachers of the colleges) and also because they realize the importance of the kind of work we are doing through this association, Considering that it is such a huge and varied body, it has worked smoothly, with very few challenges. All the teachers seem to realize its value and take the work very seriously. We have very good secretaries in both languages English and Hindi.(All the material has to be in both languages). After the seminar paper is drawn up, it is left to the secretaries to do the translation, distribution etc. In general, it is done efficiently, but occasionally procrastination prevails and reminders have to have to be given.
