Dr. Shilpi Kiran
Ms. Hena Naz

Thematic background - The emergence of the new COVID-19 vaccines has raised questions around their safety in different scenarios. From whether it's safe to have vaccine, to being vaccinated if you've already had COVID-19. A basic understanding of immunology can answer all these questions. If we are ever to return to normality, then the world's population needs to be immune to SARS-CoV-2, the virus that causes COVID-19. **The National webinar on "COVID 19 Vaccination: Ifs and buts"** offers an effective platform for sharing expertise and idea regarding vaccination.

NATIONAL WEBINAR ON
"COVID 19 VACCINATION: IFS AND BUTS"
